February 21, 2022

Prescribed burns at East Metropolitan Park

Travis County Parks plans to conduct multiple prescribed burns at East Metropolitan Park the week of February 21, 2022. The prescribed burns are planned for Tuesday through Thursday. A broadcast burn is planned on Tuesday and additional broadcast and/or pile burns will be implemented the following days. The prescribed burns will occur between 10 a.m. and 6 p.m. and will take approximately three to six hours to complete.

Travis County Parks is conducting the prescribed burns in cooperation with personnel from the local fire departments and natural resource agencies.

The prescribed burns are intended to reduce wildfire danger and improve ecosystem health by removing invading shrubs, consuming dead and downed vegetation, reducing the number of exotic species, and enhancing the health and diversity of the native plant community.

Southerly winds are expected which will carry the smoke to the north across the park, Blake Manor Road, and communities to the north. One of the primary objectives of the prescribed burns is to reduce heavy fuel accumulations and we will be constructing piles to meet this objective. This will increase the amount of smoke produced during the prescribed burns and may make smoke impacts more likely. Smoke could be present for much of the day but it is expected to be relatively light.

The Park will remain open during the prescribed burn; however, some portions of the park will be closed. We anticipate closing the entire southern portion of the park, which will affect access to the soccer fields, the disc golf course, and portions of the paved trail. Other areas within the park that are not closed may be impacted by smoke from the prescribed burn. Closures may extend into the weekend in some locations.

Travis County is currently under a burn ban. Burn bans limit certain types of fire use in order to minimize the potential for accidental fires and to reduce the impact fires have on emergency responders. Burn bans do not limit all fire use (cooking, welding, etc.), and many activities are allowed with certain restrictions. Prescribed burn managers conduct prescribed burns during burn bans because conditions are favorable for meeting established objectives. Land managers, regulators and emergency responders coordinate the implementation of the prescribed burns.

East Metropolitan Park is located at 18706 Blake Manor Road, Manor, TX 78653.

Media note: The Park will remain open. There may be a PIO or staff available for interviews. Please call the Park Supervisor (contact listed above) for more information.
